Monster Girl Treats

Miia

Loves eggs (she's a snake, after all). Before the others arrived, she'd have her darling cook eggs for her every morning. Recently, she's been really into oden eggs.

Centorea

Loves carrots (she's a horse, after all). But her appetite for them is a little too enthusiastic. The others make fun of her for it, so she tries her best to hide it. Has really gotten into red carrots as of late.

Suu

Eats anything, or more accurately, absorbs anything she can digest. May not even have a sense of taste.

Papi

Eats anything. Has no sense of taste and absolutely no preferences. Her only impressions of food are "good" and "reeeal good."

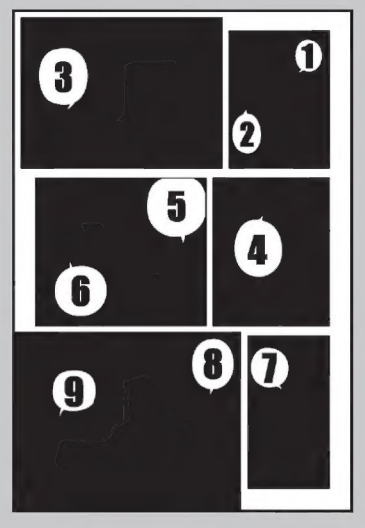
READING DIRECTIONS

This book reads from ***right to left***, Japanese style. If this is your first time reading manga, you start reading from the top right panel on each page and take it from there. If you get lost, just follow the numbered diagram here. It may seem backwards at first, but you'll get the hang of it! Have fun!!



A Monster Hit: #1 on *New York Times'* Manga Best Sellers list!

It's bad enough that Kimihito is stuck hosting not one, not two, but *three* sexy Monster Girls—and is forbidden by law to touch any of them, no matter how much they come on to him—but now, he's going to have to *marry* one of them! Which will it be: the sensuous, serpentine Miia; Papi the Harpy, who has boundless enthusiasm and absolutely no personal boundaries; or the noble (and extremely busty) centaur, Centorea? Kimihito decides to get to know each one of these unearthly beauties a little better before he makes his choice—with disastrous results!

And that's not all the strange and titillating world of Monster Girls has in store for our hapless hero. See what new adventures, mishaps, and fan service await Kimihito in Volume 2 of *Monster Musume!*
